SECTION A: READING COMPREHENSION**QUESTION 1****READ THE FOLLOWING PASSAGE AND THEN ANSWER THE QUESTIONS.****GET CELL 411**

- 1 The country of South Africa is a beautiful place and full of some amazing people, yet government corruption, politics and slow or non-existent police response have created a nation that is ripe with violent crime. It is so bad that every 25 minutes someone is murdered in South Africa, often for trivial reasons. A simple stroll down the street could get you mugged, and farmers located in isolated areas are often attacked or even raped by lawless criminal gangs.
- 2 A survey for the period 1990–2000 compiled by the United Nations Office on Drugs and Crime ranked South Africa second for assault and murder (by all means) per capita and first for rapes per capita in a data set of 60 countries. Total crime per capita was 10th out of the 60 countries in the dataset. Street violence has become the first choice for conflict resolution.
- 3 The problem is seemingly insurmountable, yet a small mobile app called **Cell 411** is empowering the South African and helping them gain control of their personal safety without help from police or government employees.
- 4 The mobile app, available both on Android and iOS has become an overnight sensation in South Africa and has been downloaded by thousands of citizens who have been desperately looking for a way to establish a trusted way to receive help in case of emergencies. The app allows citizens to bypass calling police for help and instead build cells or groups of friends, neighbours and family members who can be instantly notified in case an emergency takes place.
- 5 With the tap of a finger, the user can summon help from 1, 2 or 200 trusted friends, neighbors or relatives. The exact coordinates of the incident is instantly sent out to his/her friends, with directions to the location of the incident. The user can even stream a live video of an incident in case evidence is needed for a criminal case.
- 6 South African farmers use Cell 411 to track down cut fences, tag the location with exact GPS coordinates and organize with other farmers in decentralized, independent groups to provide mutual aid and security in the farming community. Neighborhood watchers all over Johannesburg are using the app to keep their neighbourhoods safer and owners of

security firms are even using it to dispatch help and security guards to their clients.

- 7 Cell 411 allows you to stream live video to all your trusted friends, and request help from only trusted people, or from “good Samaritans.” You have the freedom to ask anyone for help, anywhere you go. With thousands of cells all over the world, communities, families and neighborhood watch groups have been using Cell 411 to keep criminals out, inform each other of emergencies and respond to each other’s needs. Cell 411 puts responsibility back into your hands, away from monopolistic organizations.

- 8 Virgil Vaduva, creator of Cell 411 said, *“I am happy that what started as a small personal project has become something that is helping tens of thousands of people all over the world, especially in places where police are unwilling or unable to help those who are most vulnerable.”*

- 9 The app is now listed at #15 in the top most popular social networking iPhone apps in South Africa.

- 10 You can download Cell 411 at <http://getcell411.com>

GLOSSARY

TIPS FOR KEEPING YOUR COMMUNITY SAFE

As community members, we need to work together toward creating a safer environment.

Join or start a neighbourhood watch programme. Knowing the neighborhood's trouble spots and keeping streets and homes well-lit can help prevent possible burglaries. When criminals see a well-lit neighborhood with neighbourhood watch signs, it makes them think twice before committing a crime.

People care about those they know, so getting to know your neighbours and building relationships provides an extra set of eyes on your house and on each other.

Educate your children on safe ways to help others and to resolve problems peacefully and not through violence. Make it clear that you expect kids to take action if they see someone being hurt, or if they are hurt themselves.

It's less likely that a criminal will approach two people than one vulnerable person, so start a buddy system. A buddy can be more than just a walking partner, a buddy can always be there to call for help in those times of emergency.

Share tips about security systems and try to build a 'secure' reputation for your community to prevent criminals from considering your area a target.

Get to know your community better by getting involved in local organizations and encourage your local law enforcement to get involved in community events. By creating a relationship with your local law enforcement, you can communicate community concerns more effectively and become an extension of their force.

Burglars are attracted to messy neighborhoods – make sure your space is free of clutter and places to hide.

Knowing what's happening in your neighborhood can help you recognise the warning signs of impending crime. Be ready to report any suspicious activity to your local law enforcement.

By getting more involved you can work toward protecting you, your family, and those around you from falling victim to crimes.

The SRC has decided to host the event on 25 November 2017 in the college hall, which they have booked. As students will be writing exams in the hall until 23 November, arrangements must be made with the college security to open the hall on the 24 November in order to arrange the tables and chairs.
