## ACCOUNTING P2 MARKING GUIDELINE

## MARKS: 150

## MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Full marks for correct answer. If answer incorrect, mark the workings provided.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). NOTE: if figures are stipulated in marking guideline for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or - sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. This marking guideline is not for public distribution; as certain items might imply incorrect treatment. The adjustments made are due to nuances in certain questions.
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, the marker must inspect the reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. NOTE: check operation must be $+,-, x, \div$, or per marking guideline.
11. In calculations, do not award marks for workings if numerator and denominator are swapped - this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a $\boxtimes$.
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: $f=$ foreign item; $p=$ placement/presentation.

This marking guideline consists of 9 pages.

## QUESTION 1

### 1.1 CREDITORS RECONCILIATION

|  | CREDITORS' LEDGER <br> ACCOUNT | STATEMENT OF <br> ACCOUNT |  |

1.2.2 BANK RECONCILIATION STATEMENT ON 31 MAY 2023

### 1.2.3 Provide ONE suggestion on how the problem of counterfeit (fake) notes can be prevented.

ONE valid point $\checkmark \checkmark$ part marks for incomplete / unclear responses

- Instal a scanning machine at each till (infra-red light)
- Train cashiers to inspect all notes using the scanner
- Encourage card payments at the till
- Encourage EFT payment of accounts
- Start an online sales division to minimise cash-handling

### 1.2.4 Donald was concerned about the outstanding deposits. Provide TWO internal control measures that he can implement to address this concern.

TWO valid points $\checkmark \checkmark \checkmark \checkmark$ part marks for incomplete / unclear responses

- Implement a system of regular depositing (routine)
- Place a supervisor in charge or use a cash-in-transit company to assist
- Division of duties - the person collecting and receipting cash is not the same person doing depositing
- Use the banking application to check regularly / SMS notification of all transaction with the bank.

### 2.2 FAZEL MANUFACTURERS

### 2.2.1 Control over raw material:

### 2.2.2 Break-even analysis:

| Calculate the break-even point for the year ended 28 February 2023. |  |
| :---: | :---: |
| WORKINGS | ANSWER |
| $\frac{1850400 \checkmark}{580 \checkmark-320}$260 two marks | 7117 unitsone part correct |

## Explain whether the business should be satisfied with the number of units made during the current financial year. State TWO points.

TWO valid points (with figures) $\checkmark \checkmark \checkmark \checkmark$ part marks for incomplete / unclear responses
Satisfied / not satisfied is implied in the response

- The business is making a profit on 83 units (7200-7117) / produced 83 units above the break-even point (see above)
- The business has produced 450 units more than last year (7 200-6 750)
- They have improved from a loss last year (on 324 units) to a profit on 83 units this year.

Fazel is concerned about the increase of R81 900 in total fixed costs. Provide ONE reason why he should not be concerned. Quote figures.
ONE valid point $\checkmark \checkmark$ relevant figure/s (must show comparison)
part marks for incomplete / unclear responses

- Economies of scale. Increase in production by 450 units would cause the fixed cost per unit to drop.
- The fixed cost per unit was R262 last year but dropped to R257 this year.
- Fixed costs are not related to production and should be fairly consistent.

The increase is only $4,6 \%$ (within inflation).

| Number of units missing |  |  |
| WORKINGS | ANSWER |  |
| $\underset{\text { See units in above calculation }}{2450 \boxtimes}-2050 \checkmark-360 \checkmark$ | 40 units one part correct | 4 |

3.2.2 Explain TWO strategies that Lyon could use to address the problem of customers stealing items.

Any TWO internal control measures $\checkmark \checkmark$

- Instal cameras (CCTV security system)
- Tracking devices on products
- Physical security at the exit points
- Provide lockers for customers to keep other items before entering the shop.

3.2.3 The average stockholding period is 73,7 days. Explain whether Lyon should be concerned about this. Provide ONE point.

Any ONE internal control measures $\checkmark \checkmark$ be alert to valid responses for and against.
Options for not being concerned:
Durable product / can be easily sold in the future / has a long shelf-life / always in demand to certain customers / does not take lot of storage space.

Options for being concerned:
Money is tied up in stock / takes up valuable storage space that can be used for other stock items / slow sales results in slow inflow of cash / the items may become less-fashionable in future.

### 3.2.4

| COST OF SALES: |  |
| $112 \times 680 \quad=$ $76160 \checkmark \nabla$ one part correct <br> $220 \times 920 \quad=202400 \checkmark \nabla$ one part correct  | $278560 \boxtimes$ <br> one part correct |

3.2.5 Lyon was confused as to why the Coma bag sales are better than Komfi. Provide TWO possible reasons.

Any TWO valid reasons $\checkmark \checkmark \checkmark \checkmark$ part marks for incomplete / unclear responses

- It is possible that the Coma is more attractive / value for money.
- The product appeals to a select clientele/ more popular.
- Coma is more versatile (more space/pockets) and therefore a more popular choice.

## VAT

3.3.1 Calculate the VAT amount payable to SARS on 30 April 2023.

NOTE: The given errors and omissions must be taken into account.

3.3.2 Offer ONE point of advice to Benjamin and an explanation or reason to support the advice.

ADVICE $\checkmark$ REASON $\checkmark$

- He must keep separate records for VAT and pay this on time
- VAT is collected on behalf of SARS
- Should not use VAT money as a business resource
- Money does not belong to the business
- Must budget for business expenses and manage the liquidity with funds earned by the business.
- Could run into liquidity problems
- Defaulting with VAT is a crime
- The business can be sued
- The image of the business will be compromised
- Could lose customers.
