## TEACHERS WITHOUT BORDERS PROGRAMME

BROUGHT TO YOU BY

COMLINK

## ieb <br> assessment matters

## datacentrix

## basic education

Department:
Basic Education
REPUBLIC OF SOUTH AFRICA

With grateful thanks to our associate partners, The National Department of Basic Education, The Independent Examinations Board, Siyavula Education, Smarticks, Noteshare, Lemonlicious, datacentrix, and most of all, to the schools and teachers from both the public and private education sectors who as founder contributors, have lent content to the Teachers without Borders programme, for the benefit of all South Africa's learners.

In Bill Gates words, at the Mandela Day 'Living Together’ address: "Maintaining the quality of this country's higher education system while expanding access to more students will not be easy. But it's critical to South Africa's future" - working together, we can help achieve this."

## Contributing schools to date:

| Clifton School | Milnerton High | Rustenburg Girls' High | St Peter's |
| :--- | :--- | :--- | :--- |
| Durban Girls' | Northwood High | St Anne's DC | St Stithians |
| Fairmont High | Roedean | St John's DSG | Wynberg Boys' High |
| Herzlia High | Rondebosch Boys' | St Mary's DSG Kloof | Wynberg Secondary |

## Geography G8

## June 2019

## PLEASE READ THE FOLLOWING INSTRUCTIONS CAREFULLY

1. This paper consists of 6 pages. And a 2 page colour insert.
2. Answer all questions on the paper
3. It is in your best interest to write neatly and legibly
4. Diagrams should be drawn in pencil

## QUESTION ONE: MAPWORK

## REFER TO THE MAP ON THE COLOUR INSERT PAGE

1.1 Provide the direction from Welcome Party (A4) to the Airport (B3).
1.2 Calculate the direct distance from Welcome party A4 (dot), to Arrowtown A6 (dot). Use the Linear scale and give your answer in Km.
1.3 Calculate the road distance from the middle of the bridge over the river in B4 eastwards through Queenstown to the middle of the bridge in A2. Use the ratio scale, and give your answer in Km. (show your working).

```
Working: (Formula Cm on map x map scale) / 100000
```

1.4 Provide the co-ordinates of the dot at Recovery Party in A4
$\qquad$。 $\qquad$ ' E
1.5 Name the feature found at $7^{\circ} 50^{\prime} S 25^{\circ} 56^{\prime} \mathrm{E}$.
1.6 Multiple choice: Write only the letter the most correct option in the space provided
1.6.1 Lines of Longitude
i) are measured as an angular distance North and South of the equator
ii) are called Parallels
iii) are used to calculate differences in time on earth
iv) are of equal length

The most correct statements are
a) i \& iv
b) ii\& iii
c) i \& iii
d) iii \& iv

Answer: $\qquad$

### 1.6.2 The International date line

a) is a straight line of Longitude
b) is found on the $0^{\circ} E$ line of longitude
c) when it is at midnight the whole earth is on the same day.
d) None of the above statements are correct.

Answer: $\qquad$
1.6.3 Lines of Latitude
a) never meet each other
b) are all the same length
c) divide the earth into the Eastern and Western Hemispheres
d) All the above statements are correct

Answer: (1

## QUESTION TWO: TIME

N.B. The earth makes one complete rotation of $360^{\circ}$ in 24 Hours and as a result will move $15^{\circ}$ in 1 hour and $1^{\circ}$ in 4 minutes.
The earth rotates from west to east.
2.1 If you are in South Africa at $30^{\circ} \mathrm{E}$ at 8 am and you phone someone in England at $0^{\circ}$.

Would the time in England be earlier or later than 8 am?
2.2 The time in South Africa $30^{\circ} \mathrm{E}$ is 10 am . Calculate the time in Madagascar $45^{\circ} \mathrm{E}$.
2.3 Calculate the time in Walvis Bay in Namibia $14^{\circ} \mathrm{E}$, if the time in Durban $30^{\circ} \mathrm{E}$ is 6 am
2.4 Refer to the cartoon below

In which direction (e-w or w-e) would the penguins need to travel across the IDL to go back a day?

## QUESTION THREE: SEASONS

3.1 Mix and match: Match the word in column A with the statement in column B.

|  | COLUMN A | COLUMN B | ANSWER |
| :--- | :--- | :--- | :--- |
| 3.1.1 | 21 June | Hours of daylight on the south pole on the 21 June |  |
| 3.1 .2 | $661 / 2^{\mathrm{O}}$ | Latitude of the tropic of Capricorn and Cancer |  |
| 3.1 .3 | $231 / 2^{\mathrm{o}}$ | Autumn Equinox in the Southern hemisphere |  |
| 3.1 .4 | 21 March | Winter solstice in the Southern hemisphere |  |
| 3.1 .5 | 0 | Angle of the earth's axis to the horizontal plane |  |

### 3.2 Refer to the diagram of the earth on the Colour insert page and answer the questions that follow.

3.2.1 a) Which season is the Southern hemisphere experiencing at $\mathbf{A}$ ? $\qquad$
b) On which date will the situation at $\mathbf{A}$ on the diagram occur? $\qquad$ (2
3.2.3 True or False. Write only the word True (if you think the statement is correct) or False (if you think the statement is incorrect) in the space provided.

IN THE SOUTHERN HEMISPHERE
a) Between $A$ and $B$ the days will be are longer than the nights.
b) Between C and D the nights will be getting shorter but will be still longer than 12 hours.
c) Between $B$ and $C$ the days are becoming shorter and are less than 12 hours long
$\qquad$

## QUESTION FOUR: FACTORS THAT INFLUENCE TEMPERATURE AND RAINFALL

4.1 Draw a labelled diagram to show how latitude (distance from the equator) affects temperature on earth.
$\square$
4.2 Refer to the two Climate graphs, and the map of South Africa on page ii of the
colour insert.
a) Determine the highest rainfall for Durban.
b) Account for (explain why) the difference in rainfall between Durban and Port Nolloth.
$\qquad$
$\qquad$
c) Calculate the temperature range (Lowest to highest) for :Durban
d) Account for (explain why) the difference in temperature range between Durban and Bloemfontein.
$\qquad$

## QUESTION FIVE: CLIMATE AROUND THE WORLD

Choose a word from the box below to correctlv complete the sentences below
Thermometer Hygrometer Cup anemometer Barometer
Hectopascals Millimetres Millilitres Isobars Percentage
Precipitation $\mathrm{m} / \mathrm{sec}$
5.1 a) A $\qquad$ is used to measure atmospheric pressure.
b) Atmospheric pressure is measured in $\qquad$ .
c) Humidity is measured with a $\qquad$
d) The unit of measurement used by a cup-anemometer is
5.2 Describe how snow is formed.
$\qquad$
$\qquad$

## QUESTION SIX: SETTLEMENT

6.1 Name the 2 economic activities that take place in rural settlements.
6.2 a) What do the letters CBD stand for?
b) Describe two characteristics of the CBD.
6.3 Name the area around the CBD which is undergoing constant change.

## QUESTION SEVEN: ASTRONOMY

MULTIPLE CHOICE: Write the letter of the most correct option in the space provided
7.1.1 A lunar eclipse occurs when
a) the shadow of the earth falls on the moon
b) the shadow of the moon falls on the sun
c) the shadow of the earth falls on the sun
d) the shadow of the moon falls on the earth
7.1.2 An solar eclipse occurs at:
a) new moon
b) first quarter
c) third quarter
d) Full moon
7.1.3 A spring high tide occurs at:
i) Full moon phase
ii) first quarter phase
iii) third quarter phase
iv) new moon phase
a) iii \& iv
b) i \& ii
c) ii \& iii
d) i \& iV
7.1.4 The force that is responsible for the same tide occurring on opposite sides of The earth is called?
a) centrifugal force
b) tidal force
c) centripetal force
d) magnetic force
7.2 TRUE OR FALSE: Write the word True or False in the space provided
7.2.1 We do not experience an eclipse of the moon every lunar month because the moons plane of revolution around the earth is tilted at $66.5^{\circ}$ to the earth's revolution around the sun.
7.2.2 We experience two neap and two spring tides every lunar month. $\qquad$
7.2.3 The sun's gravitational pull is less than that of the moon. $\qquad$
7.2.4 Solar eclipses cover a smaller area than lunar eclipses. $\qquad$
7.2.5 the area covered by the Partial shadow of a solar eclipse is called the footprint.
7.3 Draw a fully labelled diagram of a Spring tide (include the position of the sun moon \& earth, the gravitational pull of moon \& sun and the position if all the relevant tides.
